

ALKALINE EXTRACTION RINSE

#2664-3407

ALKALINE EXTRACTION RINSE

Alkaline Extraction Rinse combines the cleaning power of extraction powders with the instant solubility of a liquid. Alkaline Extraction Rinse will effectively remove even the most deeply embedded soils. It is very aggressive on all types of soil, yet safe for your customer's carpets. Yet, it's ready to use pH is within the recommended cleaning guidelines for warranted stain resistant carpets.

- Removes more soil for lower residue cleaning.
- Perfect for when you need that extra cleaning punch for commercial carpet subjected to heavy traffic or located in cafeteria or break rooms.
- It is very economical to use, yet uncompromising in results.
- It also provides corrosion protection for your equipment components and fittings.
- Its unique blend leaves no soil attracting residue, leaving the carpet cleaned and refreshed.

DIRECTIONS:

Alkaline Extraction Rinse works best when used in conjunction with Alkaline Pre-spray or High Alkaline Pre-spray.

When used with a portable extraction machine: Dilute 4 ounces of Alkaline Extraction Rinse with five gallons of water in portable tank for heavy soiling. Dilute 2 ounces of Alkaline Extraction Rinse with five gallons in portable tank for maintenance cleaning.

If used in a walk behind extractor, mix two ounces of Alkaline Extraction Rinse with one each gallon of water.

The carpets will generally dry overnight. Use of fans will speed up drying.
