

# Sharp Shooter 13.0

Professional Carpet Wand

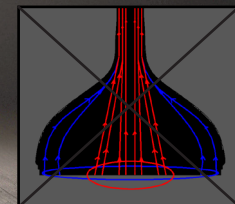

Maximum Velocity Laminar Airflow with Split Head Design Results in Reduced Drying Times. Provides Effortless Movement Across Surfaces Due to Ergonomic Design of Head, Tube and Glide.

## Wand Features:

- 13" Cleaning Path, Rotationally Molded Head
- Powder Coated 1.5" 6061 T6 Aircraft Aluminum Tube
- SS Dual Jet Manifold
- Installed: 2 Each #1 Spray Jets for High-Pressure Cleaning (300-500psi)
- Also Included: 2 Each #1.5 Spray Jets for Low-Pressure Cleaning (100-300psi)
- 3000psi 1/8th Pressure Line
- Composite Glide with Airtight Gasket Seal
- Check Valve Installed Prior to Manifold
- In-line Filter Installed Prior to Valve
- Lightweight 6.5 lbs

Sharp Shooter: Leading-Edge Design Allows for Uniform Laminar Airflow & Suction Throughout Entire Length of Wand Head

Other Wands: Uneven Suction & Airflow Throughout Wand Head
