

Sharp Shooter 16.0

Professional Carpet Wand

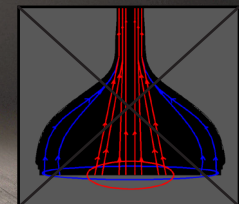

Maximum Velocity Laminar Airflow with Split Head Design Results in Reduced Drying Times.
Provides Effortless Movement Across Surfaces Due to Ergonomic Design of Head, Tube and Glide.

Wand Features:

- 16" Cleaning Path, Rotationally Molded Head
- Powder Coated 2" 6061 T6 Aircraft Aluminum Tube
- SS Dual Jet Manifold
- Four each #1.5 jets, 1.75 GPM @ 500 PSI
- 2700 PSI 1/4" pressure line
- 1200 PSI Valve
- Removable Composite Glide with Airtight Gasket
- Check Valve Installed Prior to Manifold
- In-line Filter Installed Prior to Valve
- Lightweight 8.5 lbs

Sharp Shooter: Leading-Edge Design Allows for Uniform Laminar Airflow & Suction Throughout Entire Length of Wand Head

Other Wands: Uneven Suction & Airflow Throughout Wand Head
